

READY4 CREDIT INSURANCE FOR AUTOMATED CREDIT LIMIT DECISIONS AND APPLICATIONS

Optimise the performance of your insurance contracts with insurance management tools for SAP

Reducing your administrative workload while fulfilling your credit insurance obligations is just one of the many business challenges you face. In order to manage paperless insurance contracts and ensure your insurance cover you need tools to enable you to streamline your insurance contracts.

That's why we've developed Ready4 Credit Insurance for automated credit decisions. Designed to help you minimise risk and boost corporate results, the Ready4 Credit Insurance tool helps to proactively avoid bad losses by enabling you to insure your sales and get sufficient cover on time.

OUR APPROACH

Digitalising insurance management requires not only technical expertise but also an understanding of insurance management processes. Desired outcomes are only achieved by those who not only invest in technology but in expertise too.

SOA People is both a 100% SAP specialist and an expert in credit insurance management solutions for SAP. Our consultants are experienced in digitalising insurance contracts from the world's three major insurers, Euler Hermes, Coface and Atradius. Customers invest in SAP and insurance as a long term strategy, remaining flexible and independent from insurance agencies.

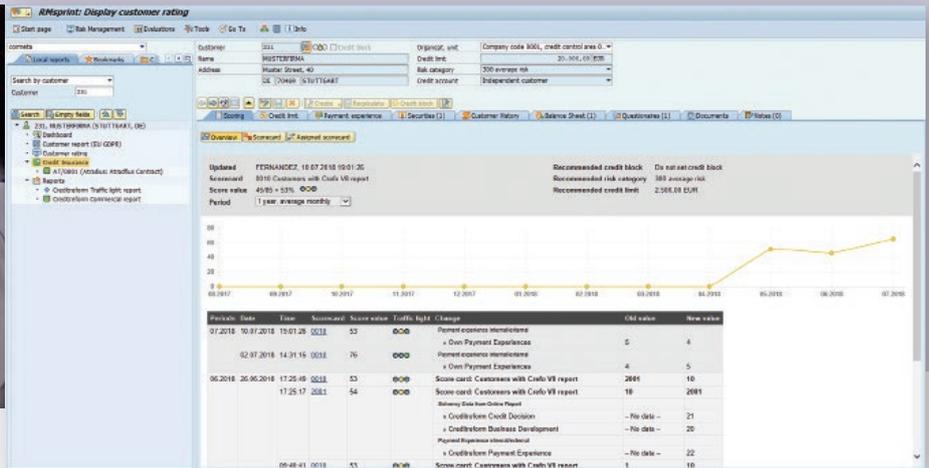

Ready4 Credit Management has been developed using cutting edge technology and the user experience is via the latest apps to give you all the digitised insurance management components you need to automate your credit decisions.

WHY CHOOSE READY4 CREDIT INSURANCE FOR YOUR CREDIT LIMIT DECISIONS?

Digitising your credit policies in SAP gives you the ease and automation to aid your decision making processes without compromising on flexibility or your manual modus. Ready4 Credit Insurance for automated credit decisions gives you:

- Insurance contract mapping in SAP for a paperless and automated fulfilment of credit insurance obligations.
- Integration of your internal data from your SAP corporate system and external data from credit insurers into one solution to provide a quick customer overview and enable real-time insurance credit limit applications to the insurer.

- Dynamic labelling of invoices in real time based on insurability
- Notifications to the insurer for premium payments in just a few clicks
- Automated applications for insurance limits and extensions based on open receivables, order processing and free definable rules.
- Insurance performance evaluations in SAP covering insurance history, such as limits granted, cancelled or partly accepted, to check insurance profitability and convenience.

WHY SOA PEOPLE

For 10 years SOA People has been supporting its customers to transform their business into exceptionally efficient, high performing companies. With our proven methodology and professional approach, we boast an impressive track record of successful and innovative projects, giving you:

- Standardisation across the company with high level customisation by managing credit insurance
- Quality data to enhance decision making
- Strategy instead of routine
- Sustainable growth with insurable sales
- Insurance history from customers available at all times
- Sales orders included in the insurance process to apply for enough insurance limits on time and keep sales insurable.

HERE TO HELP

Find out how you can reduce your administrative workload while fulfilling your credit insurance obligations and digitalising your insurance contracts to create paperless and secure insurance management.

Contact our team of experts for a no-obligation discussion on how to optimise the performance of your insurance contracts and avoid overpaying premiums.

"By directly linking the credit bureaus and credit insurance, we gain valuable processing time leading to faster feedback to the sales team. This not only creates competitive advantage but also extra time to assess credit in the case of a challenge"

Markus Fässler, Director Financial Accounting, Zumtobel Group AG
