

MANAGE YOUR CREDIT RISK

THE CREDIT MANAGEMENT SUITE FOR SAP

Credit risk exists in every business. Bad debt, losses, dispute management and liquidity are just some of the issues that organisations often face.

That's why we have developed Ready 4 Credit Management. Designed to help you minimise risk and boost corporate results, this credit management suite effectively helps to proactively avoid bad debt losses and sustainably increase your company's success.

ABOUT READY 4 CREDIT MANAGEMENT

Because our Credit Management Suite is seamlessly integrated into your ERP / SAP environment it is completely in line with all of SAP's technology and processes.

Ready 4 Credit Management offers sophisticated solutions to optimise your business processes, giving you the ability to create in-depth credit checks and objective limit assignments based on external and internal sources of information and combined with dynamic risk classification – all essential for efficient credit management.

This Credit Management Suite helps you with your SAP credit management by supporting you in the following ways:

- In-depth credit check
- Objective limit assignment
- Connection to external credit reporting agencies
- Internal sources of information for transparent business processes
- Dynamic risk classification
- Comprehensive reporting

Ready 4 Credit Management covers:

- Credit insurance management
- Risk management
- Dispute management
- ABS / factoring management
- Collection management
- Information management

This Credit Management Suite gives you:

- No system failure due to seamless integration in SAP
- No additional hardware necessary
- Quick and affordable introductory projects (since SAP is already being used)
- Extensive IT and user support due to the SAP-compliant support line
- Effective support of time-critical decisions
